## **NEW LAUNDRY ROOMS COMING SOON**

The Board of Directors has finalized negotiations on a new laundry room vendor contract and has authorized construction for new modern laundry rooms. Starting in 2006 the board will relocate one basement laundry room to ground level each year. The first laundry room to be relocated is Laundry Room #4 and will be completed by autumn 2006. Each new room will be above ground and completely renovated with new equipment, doorway awnings, ground level store front windows and doors, rolling baskets, seating and automated card reading machines. Once the new rooms are opened, the old rooms will be closed or converted into a storage rooms.
