

Glen Oaks Village Owners, Inc.

Doorbell and Other Security Camera Installation Notification to Management Office

The Glen Oaks Village Board of Directors and Security Department work very closely with the NYPD and crime prevention in our community. Keeping track of security cameras in the community allows us to quickly determine if cameras are nearby crime scenes which can be helpful in stopping and apprehending criminals. In an effort to keep track of all Security Camera locations on the property, the Management Office requires this form to be completed instead of an Alteration Agreement. If you would like to install a video doorbell or other security camera system, please complete this form. By doing so, you are in compliance with our House Rules. If you have any questions, please contact Maria Fundus at (718) 347-2337, ext. 114.

The most popular choices are featured below. The process is simple. Purchase the Video Doorbell or Security Camera(s), install the system and return this fully executed Form to Management.

Management in accordance with the Board's directive will notify you if your security system is not in compliance. Systems are rarely non-compliant, but may be non-compliant for various reasons, such as: direction the camera is pointed, volume or brightness of lights, etc.

If we discover a security camera of any type which has not been registered, you will be issued a house rule violation of \$100.

Submit completed form to: Maria Fundus at the Management Office 70-33 260th Street, Glen Oaks, NY 11004. Maria Fundus 718-347-2337, Ext. 114; Fax: 718-343-2538; E-mail: Marief@govo.net.
